**Model** : ATZ HDMI-CABLE-V1.4-20M

**Description:** HDMI TO HDMI CABLE w/Ferrite Ver 1.4 W/GOLD PLATED CONN - 20M

Ferrite Cores are small magnetic blocks wrapped around the end of a cable. They are used to suppress EMI/RFI electronic noise on the cable by absorbing the unwanted high frequencies and dissipating them as very low-level heat.

## This cable supports the following HDMI® features:

- **1080p Resolution** - The High Speed HDMI® Cable has sufficient bandwidth to transfer 1080p video signals between 1080p rated source and sink (display) devices.
- **Audio Return Channel** - Normally, your HDMI® cable carries audio information along with the video from a source device (e.g. blu-ray player) to the sink device (display/television). Often times this goes through an AV receiver to drive a home theater audio system. The Audio Return Channel is primarily used to send the audio signal generated by the television when its internal tuner is used, back to the AV receiver, so that you can use your home theater audio system when watching television signals.
- **3D** - 3D is the latest rage for both home theater and gaming. A High Speed HDMI® Cable is capable of handling the high bandwidth requirements of 3D signals.
- **4K** - 4K x 2K Video Support - The HDMI 1.4 specification adds support for extremely high video resolutions that go far the HDMI 1.4 specification:
  - 3840 pixels wide by 2160 pixels high
  - 4096 pixels wide by 2160 pixels high
- **Deep Color** - The Deep Color feature provides a minimum of 8-bits per color element (24-bits total), providing for a total of over 16 million color variations. Other versions of Deep Color allow for up to 16-bits per element, for a total of 48-bits and over 281 trillion color variations, which really makes your video images come to life!
- **High Definition Audio** - HDMI® supports a full range of high definition audio types, including SA-CD, DVD-Audio, DTS-HD Master Audio™, and Dolby TrueHD™.

## Specifications:

- 7.1 Digital Surround Sound
- 4K cinema Resolution
- 24k gold-plated connectors
- HDMI (Type A) to HDMI (Type A) connectors
- Full 3D HD 1080p+
- HDMI Ethernet Channel
- Cable Length: 20 Meter
- Gauge: 26AWG
- Speed Rating: 10.2 Gbps

**Model** : ATZ HDMI-CABLE-V1.4-20M

**Description:** HDMI TO HDMI CABLE w/Ferrite Ver 1.4 W/GOLD PLATED CONN - 20M

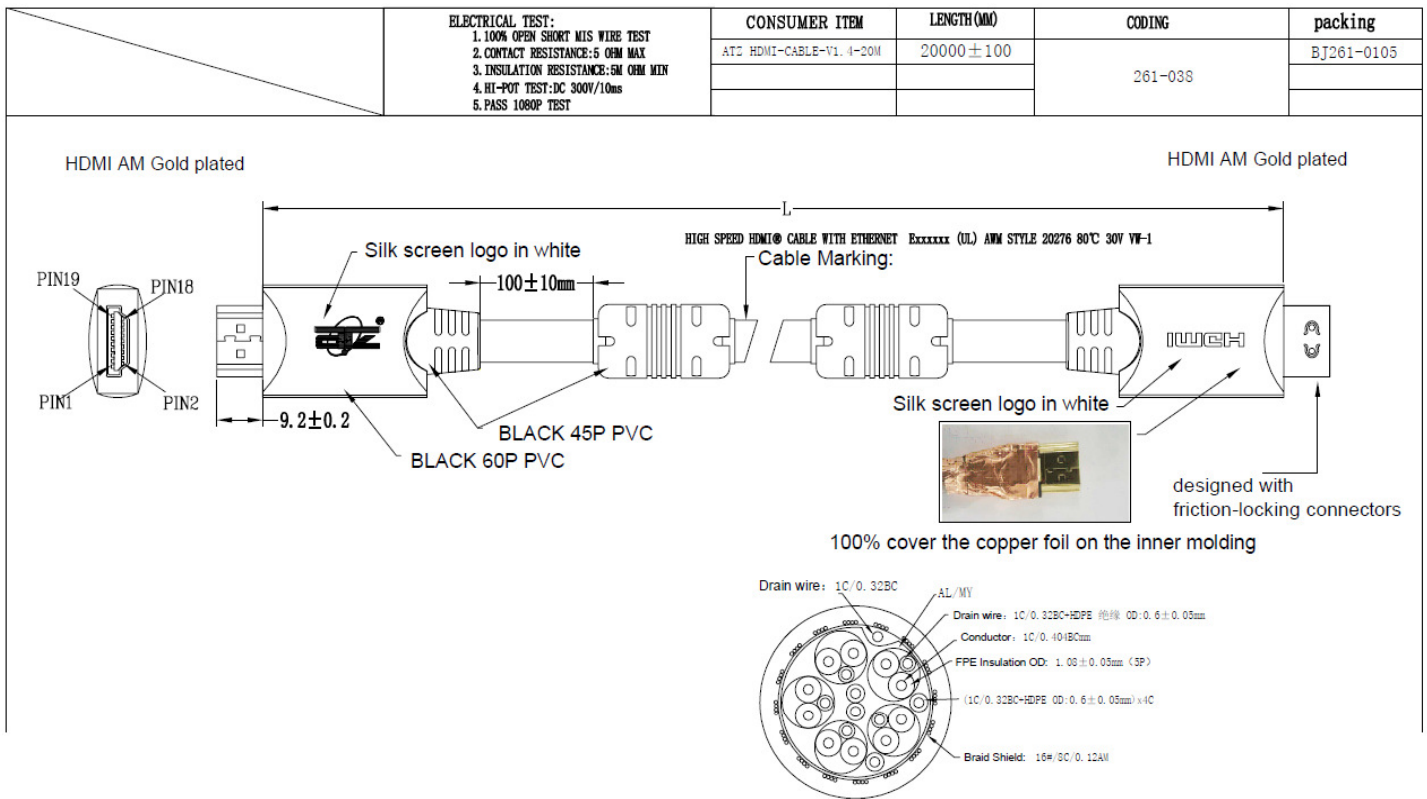

- Integrated Strain relief protects against wire damage Abrasion-resistant, flexible PVC jacket maintains integrity, even when bent.

**Package Includes:**

1x HDMI CABLE v1.4 (20m)
