Description: Mini DisplayPort to VGA Active Adapter Cable (2m/3m/5m)

Stockcode : ATZ MINI DP-VGA-~~x~~M (~~x~~=2/3/5)

Description: Mini DisplayPort to VGA Active Adapter Cable (2m/3m/5m)

Mini DisplayPort to VGA Active Adapter Cable connects a computer with Mini DisplayPort (or Thunderbolt) to the VGA port on a monitor, projector or television. With a Mini DisplayPort male connector on one end and an HD15 male connector on the other, it lets you use your existing VGA display instead of buying a new Mini DisplayPort monitor.

Ideal for displaying video on a large monitor or digital sign, this cable supports Resolution up to 1920 x 1200 and HDTV resolution of up to 1080p for optimal viewing experience. It converts both Single-Mode and Dual-Mode (DP++) Mini DisplayPort output, and is perfect for use with graphics cards, such as AMD Eyefinity, that do not output DP++ signals. First-class foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI interference. Gold plated connectors and contacts ensure excellent conductivity. Integral strain relief ensures the cable and molded connectors last a long time.

Feature:

- Mini Displayport v1.1a
- Computer video resolution up to 1920 x 1200
- HDTV resolution supported: 480i, 576i, 480p, 576p, 1080i and 1080p @60Hz.
- Bandwidth: Up to 10.2Gbps.
- No software or additional driver installation required
- Support full Thunderbolt and mini Display Port link training
- Black colour
- Gold-plated connectors resist corrosion, Foil & braid shielding reduces Electromagnetic interference
- Triple shielding

****Only convert signal from Mini DisplayPort to VGA, it is not a bi-directional adapter.***

Packing Contents:

- 1×Mini Displayport Male to VGA Male Adapter cable – 2M/3M/5M

Warranty:

3-YEARS Warranty.
