

Model : ATZ NET-RJJ-C6

Description: Cat.6 RJ45 110/Krone Horizontal type Keystone Jack, White, T568A/B

High quality RJ45 Keystone Jacks for wall plates and patch panels. Available in multiple pack options. Cat 6 Cat 5e and Cat 5 compatible. (Category 6, Category 5e, Category 5).

Gold plated contact points for superior connections, 1Gbp/s speeds supported great for all your ethernet network deployment projects. Speed / Easy termination tool compatible.

These RJ45 Keystone Jacks in white will offer superior performance for all of your Category 6 / Category 5e / Category 5 (Cat 6 / Cat 5e / Cat 7) deployments. Great for all Commercial and Residential low voltage deployment. Works great in Keystone Jack Wall Plates.

Features:

- Heavy duty Cat6 RJ45 Punch Down Keystone modular Jack for patch panels, surface mountboxes, or wall plates (face plates) with standard keystone ports.
- Future-proof your network for 10-Gigabit Ethernet with this convenient and cost effective multi-pack punch down keystone for Ethernet.
- This Keystone jack meets and exceeds ANSI/TIA-568 Standards.
- Supports T568A and T568B wiring with colour coded 110 blocks. It Supports 110 or Krone dual type termination and accepts 23 or 26AWG solid Ethernet cables.
- IDC cap protect the blocks and wires against dusts. UL Listed Cat6 jack meets Category 6 performance.

Model : ATZ NET-RJJ-C6

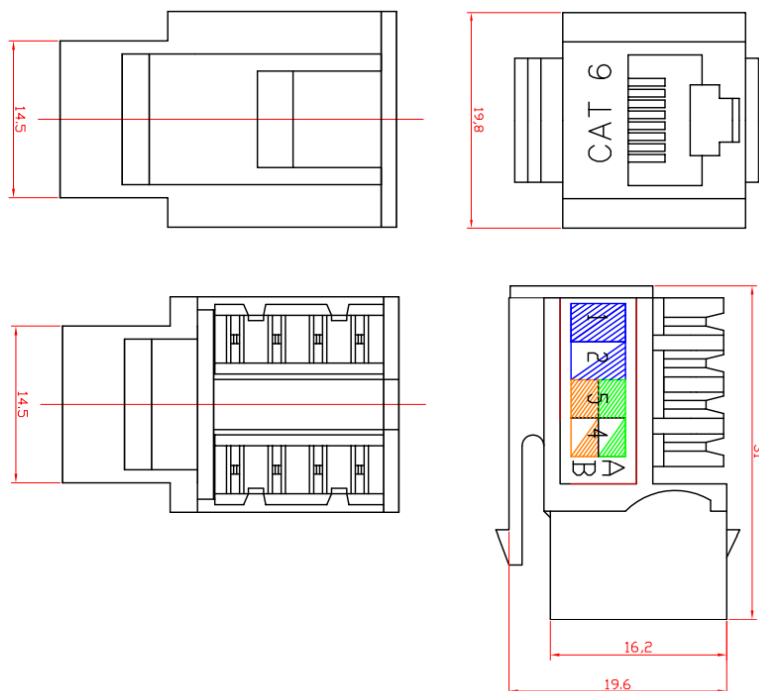

Description: Cat.6 RJ45 110/Krone Horizontal type Keystone Jack, White, T568A/B

- Easy to be terminated Low attenuation loss and high return loss.

Specifications:

- Connector Housing: ABS High-Impact UL94V-0
- IDC Housing: Polycarbonate High-Impact UL94V-0
- IDC 110 Contacts: Phosphorus Brass with Nickel plating
- Termination wire range: 23 AWG – 26 AWG
- IDC 110 Contacts- Phosphorus Brass plated with Nickel
- Nose Contacts - Brass plated with a minimum of 50 μ "Gold Plating
- Relief caps for IDC connector included
- Current Rating: 1.5A
- Dielectric Withstanding Voltage: 1000V
- Temperature: -10°C to 60°C
