

Model : ATZ USB2xx (xx=05/10/12/15/20/25)

Description: USB 2.0 active repeater cable (5M/10M/12M/15M/20M/25M)

USB 2.0 A-Male to A-Female Active Extension Cable 15m is a bus-powered extension cable that can be used to increase the distance of a device without the worry of signal loss and potential performance problems. It contains active electronics which boost the USB signal for maximum reliability and performance over extended distances. It's plug-and-play with no additional drivers required. It support Win, Mac, Linux OS

Features:

- 15m high speed USB 2.0 extension cable, fully compliant with High speed 2.0 standard.
- Twisted-Pair construction adopts impedance matching methods to ensure high-speed, error-free data transfer.
- The foil and braid shielding reduce EMI/RFI signal interference.
- Built-in signal booster.
- High speed data transfer rate up to 480Mbps.
- Plug & Play, hot pluggable.
- Don't need external power.

Model : ATZ USB2xx (xx=05/10/12/15/20/25)

Description: USB 2.0 active repeater cable (5M/10M/12M/15M/20M/25M)

- Suitable for connecting U disk, printers, scanners, digital cameras, card readers, etc.
-

Specifications:

- Connector: USB A Male to Female
 - Compliant with USB 2.0 High Speed (480Mbps), backward Compatible with USB 1.0 Standards
 - Active USB extension cable, ensures good signal quality to meet USB2.0 specification
 - Extend USB signal up to 25M
 - Gold-plated connector
 - Plug-and-Play - No additional drivers required, USB bus powered
 - Built-in IC Chips,with EMIFIL
 - Color: Transparent dark gray
 - Cable length: 5M/10M/12M/15M/20M/25M
 - Weight: NA
-

Package Includes:

1 x USB 2.0 Repeater Cable

Warranty: 1 Year

Warranty is effective from the date of original delivery.

This warranty shall be void if a serial number has been removed from the product.
