

**Model** : ATZ VS134  
**Description** : 4 ports VGA splitter 350Mhz

**Model** : ATZ VS134

**Description** : 4 ports VGA splitter 350Mhz

VGA Splitter is a product which can distribute VGA signal without loss to one or more high definition display device such as HDTV. It can optimize your home theatre system to the best effect.

VGA signal is distributed from source device such as DVD, Satellite Receiver, Set-Top Box, DV Camera, A/V Receiver and other VGA enabled device to high definition display device such as HDTV and HDMI Flat panel Display.

### Features:

- VGA splitter come with attractive appearance, easy to install.
- Do not need to plus additional hardware or software.
- Video resolution can reach 1920 x1440 @ 60 Hz and support the DDC, DDC2, DDC2B function.
- Support DOS, WIN3.X, WIN95/98/98SE/2K/ME/XP/NT, Linux Netware, Unix and other operating systems.
- Support plug and play, can be free to change the quantity of display without shut down.
- Extend the transmission distance and improve transmission signal.
- Metal casing design and overall shielding without signal interference.
- Led indicates signal and power mode.
- Power supply (please refer to technical parameter).

### Specifications:

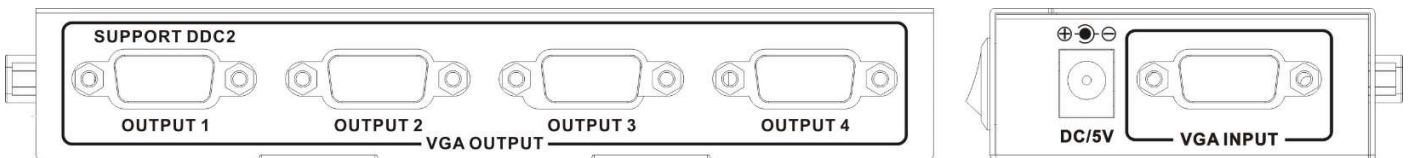

VGA Source Input Port	1xVGA
Display Device Output Port	2xVGA
Source Port Connector	VGA-HDDB-15P.
Display Device Port Connector	VGA-HDDB-15P.
Screen Resolution	1920*1440@60Hz
Bandwith	350MHz
Working Voltage	0°C-70°C
Working Voltage	DC 5V
Power Adaptor	5V 1A
Net Weight	0.25kg
Dimension: L*W*H(mm)	149.5x64x25

**Model** : ATZ VS134  
**Description** : 4 ports VGA splitter 350Mhz

## Panel Introduction

ON/OFF-----Power switch  
 Power-----Power Indication

Output1-4 -----VGA Output1-4  
 DC/5V-----DC Power Input Port  
 VGA INPUT-----VGA Input port

- Connect the VGA cable between signal source and input port of Splitter.
- Connect the VGA cable between output port of Splitter and HDTV.
- Connect splitter and power adapter.
- Open the signal source and the power of HDTV, then it works.

**Explanation: With different brands of the input or output device, the length of the connecting cables will differ too.**

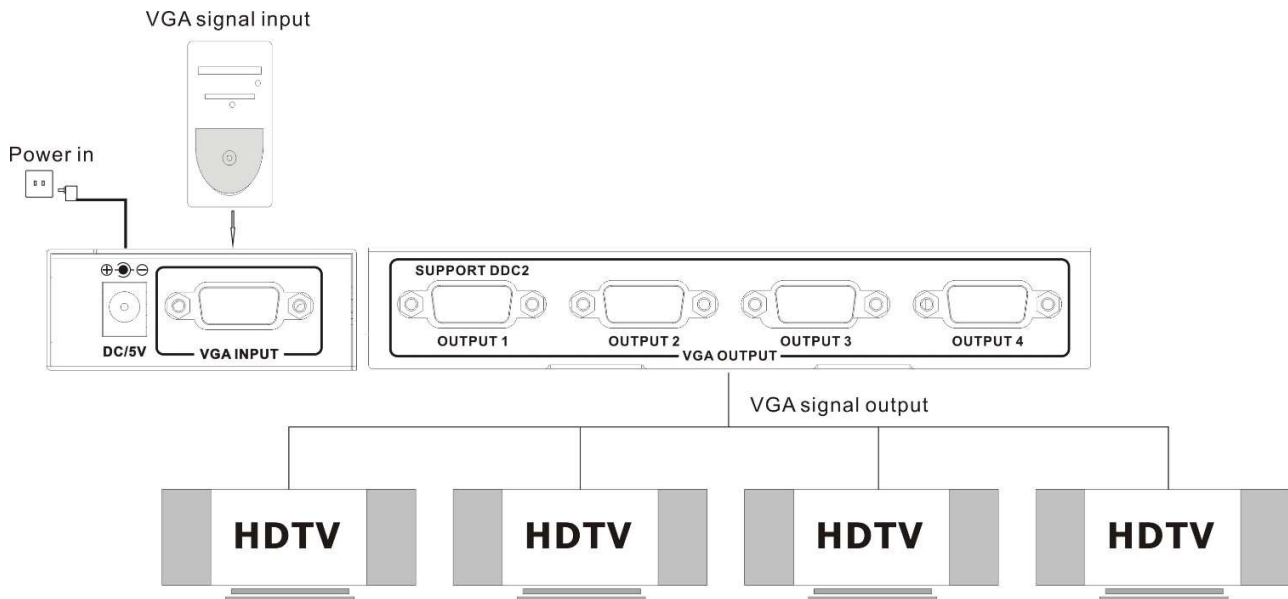

### Installation and Precautions

*To avoid electric shock, product damage and to protect your safety, please notice the following:*

1. Please slowly plug or unplug signal cables and do not often plug, unplug, or shake them.
2. The equipment should not be placed under the sun, rain and damp or unventilated environment.
3. Liquid items should not be placed on the equipment.
4. Do not install the equipment near heat sources such as fire, power, or other amplifiers that produce heat.
5. Do not insert the metal or other objects to the equipment in addition to connecting cables to ports.
6. Do not demolish the equipment by yourself ; it should be maintained by professional maintenance staff.
