

**Model** : MINI DP-VGA-ADPTR-20cm

**Description:** MINI DISPLAYPORT TO VGA ADAPTER w/SHORT CABLE (20cm)

Mini Displayport to VGA Adapter connects your Mac Mini, iMac, MacBook Pro or MacBook Air to a VGA display or projector supporting 1920x1200 & 1080p at 60Hz; EDID & DDC pass-through ensures compatibility between source & display

**Model** : MINI DP-VGA-ADPTR-20cm

**Description:** MINI DISPLAYPORT TO VGA ADAPTER w/SHORT CABLE (20cm)

## Features:

- Mini DisplayPort 1.1a./1.2 provides 5.4Gbps bandwidth through 2 channels
- Support resolutions up to 1080p, 1920 x 1200
- Support 1080p, 1920x1200 resolution, efficiently converts to bright and full picture quality with no snowflakes, flicker. Playing games and watching blockbuster movies will become more realistic.
- Support PC, Notebook, MacBook Pro/Air with Mini DP/Thunderbolt 2 interface to extend the connection to another Large TV Screen, monitor, or Projector, providing multi-task split-screen display for work, gaming, video editing, stock market analysis, etc.
- Tinned copper core + aluminium foil + aluminum-magnesium braided mesh + ground wire triple shielding, effectively reducing electromagnetic interference.
- The Mini DP connector interface is Gold-plated, which can effectively prevent corrosion and wear, greatly extend service life, and ensures signal stability.

**Note:** this adapter is NOT Bi-directional

## Specifications:

Connector A	1x mini-DP male [20 pins] – Gold plated
Connector B	1x VGA 15-pin female
Storage Temperature (°C)	-10 ~ 70
Operating Temperature (°C)	0 ~ 45
Humidity (% RH)	10 ~ 85
ESD	HBM 8kV
Shell Dimension	(45x45) mm
Shell Material	ABS
Shell Colour	Black
Cable Length (cm)	15
Weight (g)	39
Cable Type	UL20276 #32*3P+#32*5C+AEB black PVC
Cable OD	5.0mm
Cable Shielding	Triple Shielded
Certification	RoHS
