

Model : DP-HDMI-ADPTR

Description: DISPLAYPORT V1.2 TO HDMI ADAPTER

Portable adapter connects a DisplayPort equipped laptop or desktop to your existing HDMI devices. The format supports both digital video and audio.

While DisplayPort connectors are capable of passing an HDMI signal, DisplayPort and HDMI signals are basically different and not compatible with each other. This adapter does not actively convert a DisplayPort signal into an HDMI signal. It is a passive adapter that requires a dual mode DP++ port (DisplayPort++), meaning that DVI and HDMI signals can also be passed through the port.

Features:

- HIGH PERFORMANCE ADAPTER - Connects DisplayPort equipped desktop or laptop computer to HDMI display
- Support DisplayPort 1.2a input and HDMI1.4b output Supports 4K 2160P @30Hz Only.
- Supports uncompressed digital 7.1, 5.1 or 2 audio channels surround audio providing amazing surround sound quality for better entertainment experiences
- Gold-plated 24K connectors improve the signal transmission, provide rigidity and resist corrosion.
- DisplayPort connector with latch, provides secure connection, and to prevent accidental disconnection.
- Supports EASY PLUG-n-PLAY INSTALLATION - No driver or software installation required.
- Supports HDCP (High-bandwidth Digital Content Protection) on HDCP compliant HDMI displays.
