

Model : ATZ UH307

Description: USB3.0 7-ports HUB with switch+LED

The hub is made of ABS engineering plastic, and the surface is treated by mirror technology, which is simple and fashionable.

7-Port USB 3.0 interfaces, mutual interference, and LED status indicator, multiple devices can be used at the same time. The plug and play hot plug design.

It supports the connection of USB devices such as mobile hard disk / USB disk / card reader / mouse / keyboard / mobile phone / tablet / MP3 / MP4 / recorder, and can connect 7 USB devices to desktop / notebook / ultrabook / tablet, at the same time

Model : ATZ UH307

Description: USB3.0 7-ports HUB with switch+LED

Features:

- 7-Port USB3.0 interfaces are rapidly expanded, which can be easily connected to USB3.0 and traditional USB devices. In the actual test, it supports the connection of mobile hardware and other high-power devices, bringing more vitality to our digital life.
- The battery charging controller circuit is integrated, which can realize the special charging port (DCP) and charging downstream port (CDP) required by USB battery charging 1.2 specification, support charging for the connected devices, and the electrical efficiency can reach more than three times of ordinary USB interface and hub.

Specifications:

- Simple appearance: made of high strength ABS, light and strong
- Small and portable: specially designed for desktop computers, laptops, ultrabooks and tablets
- High speed transmission: comply with USB3.0 transmission specification, 5Gbps theoretical transmission speed
- Rapid expansion: output 7-port USB3.0 interface, support 7 USB devices at the same time
- Super compatibility: compatible with USB2.0 and USB1.1, support common USB devices and mobile hard disk
- Stable charging: it supports charging the connected devices, and its electric efficiency is higher than that of ordinary USB hub
- Stable performance: low power consumption, no noise, USB3.0 interface balanced transmission, safe and stable
- Safe and reliable: the unique voltage and current overload protection can effectively protect the hub and the connected devices. The built-in LED indicator can display the connection status of USB power supply and USB peripheral device connected to each USB port
- Plug and play: support hot swap, plug and play, no driver required. Compatible with Windows 7 to windows 10 / Vista / XP / Mac and other operating systems
- Transmission rate: 5Gbps
- Connection interface: USB 3.0x 7
- USB cable length: 30cm

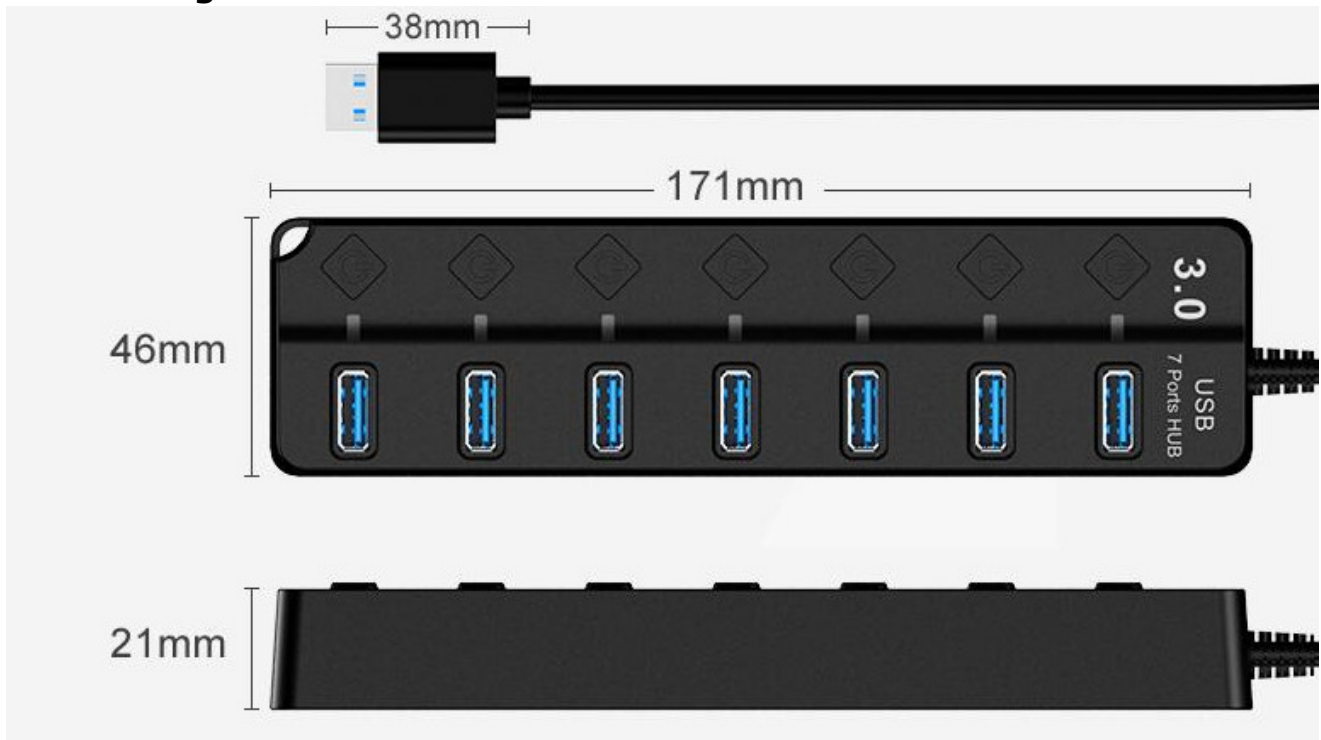

Model : ATZ UH307

Description: USB3.0 7-ports HUB with switch+LED

Package Includes:

1x USB3.0 7-ports Hub

Product Diagram:

Warranty: 1 Year

Warranty is effective from the date of original delivery.

This warranty shall be void if a serial number has been removed from the product.
