

Model : ATZ VS138

Description : 8 ports VGA splitter 350Mhz

This ATZ 8-port VGA splitter with 350MHz bandwidth is designed to mirror and amplify a single VGA video signal to eight separate monitors or projectors simultaneously.

This splitter amplifies and distributes VGA signals without degradation, supporting resolutions up to 1920×1440 @ 60Hz. With 350MHz bandwidth, it ensures crisp, high-definition visuals across all connected screens.

Built with industrial-grade metal housing, it offers durability and heat dissipation for long-term use. This splitter support 3 level cascading, allowing expansion up to 512 video displays. Low cost of solution for medium and long distance multimedia transmission setup.

It's commonly used in environments like classrooms, conference rooms, control centres, trade shows, training room and retail displays where synchronized video output is essential.
