Description :		6.35mm (1/4") Stereo Male to Male cable
		(xx = Length: 1m/2m/3m/5m/10m/15m/20m/25m/30m/40m/50m)

The 6.35mm (1/4") Stereo Male to Male cable - also known as a TRS (Tip-Ring-Sleeve) cable - is a high-fidelity audio interconnect designed for professional-grade stereo signal transmission.

Commonly used in consumer and semi-professional studio, stage, and high-fidelity audio setups, with 6.35mm audio interface.

This cable ensures robust connectivity between devices such as headphone, amplifiers mic, mixers, audio interfaces, stage boxes, digital recorders, studio monitor, syntherziers, karaoke, home theatres and musical instruments. It is also used to link keyboards, synthesizers, and effects processors.

Description : 6.35mm (1/4") Stereo Male to Male cable

(xx = Length: 1m/2m/3m/5m/10m/15m/20m/25m/30m/40m/50m)

Features:

- Support stereo balance setup for optimum audio performance
- Delivery two channels over single audio channel sources
- Support dual audio change where it carries both left and right stereo signals simultaneously
- Shield surrounding centre conductors for maximum EMI / RFI noise rejection making the sound quality undisturbed by external signals.
- Gold plated contact with inner copper spiral shielding to reduce noise interference providing clear transmission and reduce loss of sound quality
- Professional Gold-Plated Pins, anti-corrosion and oxidation resistance. With multiple plug-and-pull tests, this cable is perfect for your daily prolong usage
- Premium materials and construction results in clear, high-definition sound output
- Heavy-duty cable withstands stepping, heavy pressure, rodent chewing, and other external factors while continuing to function normally
- Robust construction provides excellent flexibility and protection over long distance against harsh conditions and wear
