[XX = Colour: BK: Black / SV: Silver]
Description: D-Type Faceplate - Aluminium alloy 1 x Power + 2 x D-Type Holder
(86 x 86mm) - Black / Silver

Screw Hole Countersunk Hole Position

The countersunk hole has a 45-degree structure, which is smoother than the ordinary screw hole. The reaming of the upper part of the bolt hole can accommodate the bolt head, so that the screw head is not higher than the surface of the panel, which improves the safety.
